

Preset Organ Registrations

1 April 2012

Allen LD-34 Digital Organ

Overview:

The LDS Church Musical Instrument Selection Committee has worked with Allen Organs to preset Memory 16 and Memory 15 on this organ with registrations organists may find useful during church services. Listed below are the stop combinations that have been preset on Memory 16, which cannot be changed. Memory 15 is also preset with stop combinations listed on the back of this page. Memory 1 through Memory 14 can be programmed by the ward or stake organists.

Memory 16: General Combinations 1-10

Use General Combinations 1-10 when playing a congregational hymn, louder postlude, or fuller choir accompaniment. These ensemble combinations gradually build up from General 1 (which is useful for a very soft congregational hymn such as "Silent Night") through General 10 (which is nearly full organ for the last verse of a hymn such as "Redeemer of Israel").

Memory 15: General Combinations 1-10

Use General Combinations 1-10 when playing a prelude, soft postlude, or soft choir accompaniment. Generals 1-3 are set with a softer accompaniment on the upper Swell manual and a louder solo combination on the lower Great manual suitable for playing a single melody line. Generals 4-10 are set with the softer accompaniment on the lower Great manual while the louder solo combination suitable for playing a single melody line is on the upper Swell manual. Some of the solo combinations have been preset with the Tremulant. Tremulant is most effective when used sparingly for soft solo melody combinations. Tremulant should not be used to accompany congregational singing.

Divisional Combinations 1-6

Use the six Swell and six Great Divisional Pistons for playing a single melody line on one manual. Choose a softer accompaniment on a separate manual and pedal. Some of the combinations have been preset with the Tremulant. Tremulant is most effective when used sparingly for soft solo melody combinations. Tremulant should not be used to accompany congregational singing.
